

... about your SOCIAL SECURITY ...

"There are four times as many dependent parents of the deceased as there were in 1950," says Mr. Scott, social security district manager in Dothan, said today. "One of these is when a worker in your family dies," he continued. "It is important to find out whether survivor insurance benefits are payable."

Mr. Scott went on to say that monthly social security payments can be made to certain dependents of a worker upon his death. Some of these dependents are his unmarried children under 18 years of age, or who were disabled before 18, and his widow (and also dependent widowers). There are also times when payments can be made to

"Your Health" is presented by the Alabama Medical Association, a health service of the Medical Association of the State of Alabama.

FOLK MEDICINE

The asafetida bag hung around the child's neck was an important feature in preventive medicine. The fetid, garlic-like odor of the plant kept others away from the child, thus preventing a spread of infection. Superstition has long been a powerful influence on man. Since the beginning of his experience, man has had to fight against perils. Some dangers he could readily sense as a wild beast's attack, an oncoming storm, intense heat or cold, or conflict with human enemies. Other dangers of life such as accidents and disease that he could not foresee or explain, he attributed to the influence of demons. Even in this enlightened age, people maintain certain superstitions like thirteen being unlucky, and to carry a rabbit's foot brings good luck. Sometimes, what once appeared to scientists as an earlier era as superstitions, were in fact theories based on trial-and-error processes. For instance, cutting a hole in the skull, practiced thousands of years ago to let out the evils, actually relieved the pressure of tumors on the brain. Centuries ago the Peruvian Indians dosed a fever-ridden person with the bark of a certain tree, and today we call such a fever malaria, and treat it with this same tree bark, named quinine. Hundreds of years, milkmaids were accustomed to scald the inside of their milkpails, insisting this action prevented germs from souring the milk from souring. Pasteur discovered that the milkmaids' superstition made sense, for he found that germs soured the milk and scalding water kills germs. There's often more of scientific truth than meets the eye in folk medicine.

Mmmmm-scrumptious!
Ideal! Eat out tonight.

**GOING AWAY
FOR A VACATION?**

Here are a few hints to make it a more enjoyable one. First get a check-up from your physician and any needed preventive "shots." Next take with you medicines you regularly use. Plus one for indigestion, diarrhea, constipation and a good healing antiseptic. We can help you select good products.

Stop in and get from our favorite brands of toilet articles. We have them and you may not be able to get them in distant places.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescriptions if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

Libraries Report Increase In Circulation

118 librarians throughout the United States attended a workshop on "Reading Guidance," the first of its kind in the nation, held at the University of Wisconsin recently. Alabama was represented by its state director, Mrs. Elizabeth P. Beaumgard, and Mrs. Mozelle Cummings, both of Montgomery, and Mrs. Alice Dougherty, Ozark, and George Johnson, Opp.

Librarians heard specialists lecture on ways to present books in such a manner as to entice patrons to read more, to read the best and to read to solve

their problems.

A record number of new borrowers was reported by librarians for the month of June, 419 in all. Enterprise led with 112 new users of the library. Geneva was second with 70. Opp had 48, Andalusia, 43; Elba, 42, and Luverne, 34.

Nine of the region's twelve libraries reported an increase in circulation during June. These were Andalusia, Mrs. Cumi Wilcox, librarian; Brantley, Mrs. Margaret Carroll; Elba, Mrs. Glennie Rowe Smith, librarian; Enterprise, Mrs. Marguerite H. Huey, librarian; Florala, Mrs. Bennie Morris, librarian; Geneva, Miss Rebecca Kanan, librarian; Hartford, Mrs. Harvey Stewart, librarian; Luverne, Mrs. Rebecca Money, librarian; and Opp, Mrs. Bertha Cas-

Troy State Dean's List Released

Dean G. R. Boyd, of Troy State College, has released the names of 54 students who made the Dean's List during the spring quarter. The requirement for making the Dean's List is that the student must make a grade average of 2.7 on a 3.0 scale.

Students from Coffee County who made the Dean's List are Betsy Davis, William J. Howell, Arts and Sciences, James F. Kelley, Jr., Arts and Sciences, David D. Lihers, Engineering, all A's.

Elba Girl Named On UA Dean's List

Coffee County was one of 61 Alabama counties represented by students named to the spring semester Dean's List at the University of Alabama. To be eligible for the honor students must maintain a 2.5 scholastic average. A 3 point is "A" and a 2 point "B."

Area students named to the list included: Mary J. Smith, Arts and Sciences, Elba; Herbert H. Gannon, Jr., Arts and Sciences, all A's; William J. Howell, Arts and Sciences, James F. Kelley, Jr., Arts and Sciences, David D. Lihers, Engineering, all A's.

Mitzi L. Lott, Nursing, Carol A. May, Nursing, Ed-ward G. McCollough, Arts and Sciences, all A's, of Enterprise.

The Elba Clipper

What Alabama Makes
Makes Alabama

George Andrews Announces Annual Coast Guard Openings

Today, Representative George Andrews (D-Ala.) announced that the annual competition for entrance to the U. S. Coast Guard Academy will commence with the December 4, 1965 administration of the College Entrance Examination Board Tests.

Congressman Andrews emphasized the opportunity offered qualified young men who chose this four-year course which leads to a commission as a career officer in America's oldest continuous seagoing Armed Service and a Bachelor of Science degree.

VETERINARIANS from this area are shown at their quarterly meeting, held at the local Swine Diagnostic Lab, as they discuss poisonous plants and their effect on domestic animals. In charge of the program was Dr. W. V. Cowart. Vets pictured from left to right are: Dr. A. S. Eilard, Dr. A. S. Eilard, Dr. J. B. Taylor, of Elba; Dr. John H. Tamm, of Ozark; Dr. W. V. Cowart, of Elba; Dr. R. W. Seay, of Abbeville; and Dr. James M. Ward, of Elba.

Cattlemen Set First Field Day For Saturday

The First Southwest Alabama Polled Hereford Association Field Day will be held at Powers Brothers Polled Hereford Farm located five miles East of Sumterdale, Alabama. Divisional signs will be posted along Alabama Highway 59 at Sumterdale, Alabama.

The program begins at 9:00 A.M. with registration and proceeds through the day with a pasture tour and judging contest, fitting and grooming demonstration by Mr. Gene Shubert, and a speech by Mr. Mack Patton, American Polled Hereford Association Field man, and by Dr. J. W. Gossett, from Auburn University.

At the conclusion of the day's program the Association will give away a top quality Polled Hereford Heifer from the Powers Brothers Polled Hereford Farm. Everyone registering before 12:00 noon will be eligible to win. Dutch lunch will be available at the farm.

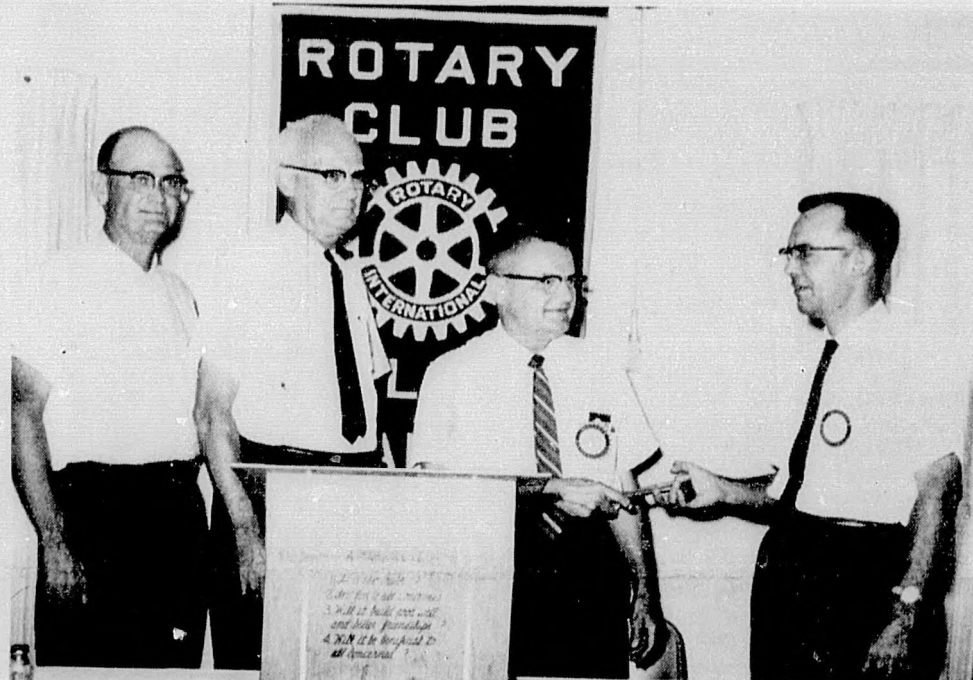

Rabies Clinic Scheduled For Elba Area

A rabies clinic schedule will be announced for West Coffee County in the next issue of The Clipper according to Doctor Philip H. Hamm.

The purpose of a rabies clinic is to give owners of pets a convenient opportunity to have their animals given shots for the dreadful rabies. Law requires that all dogs and other pets be given the shots.

The Elba veterinarian has set up the clinic and will go into the different communities so that owners may have their pets inoculated without the longer period of time required to take them to town for the shots.

Anyone who has been bitten by a rabid animal or who has seen a small child who has been bitten have to take the long series of shots which follow a possible rabid infection will know that it is much easier and safer to have his pet inoculated.

NEW ROTARY OFFICERS pictured as they took office at the regular meeting Monday, July 12th, are from left to right: Hershal Taylor, Secretary; Harold Deal, Vice President; Dr. V. D. McCreary, President showing receiving the gravel from the outgoing president Kasper Anderson. The Rotary Club, as the sign says, is an international organization with many worthwhile projects.

City Council Meeting Held Monday Night

The Elba City Council met Monday night at 7:00 in the City Hall.

The first order of business was the allocation of an additional \$30,000 grant from the federal government.

The only other business on the agenda was to vote a much needed \$5,000 pay raise for all the city employees including policemen, street crew, garbage truck crew and the City Hall administrative personnel. The mayor and councilmen each stated they were unable to give any higher pay raises at this time due to the depleted condition of the city finances.

Barber Elected By Legion

Blue Barber, of Troy, was elected to the highest office of the state American Legion, State Commander, at the annual meeting of the organization last weekend in Huntsville.

As state commander, Barber will be in charge of the overall program of the American Legion in Alabama. The four-phase program covers the areas of national security, Americanism, child welfare, and legislation.

Draft Quota Announced For State

Coffee County will furnish two draftees for the August induction into the U. S. Army.

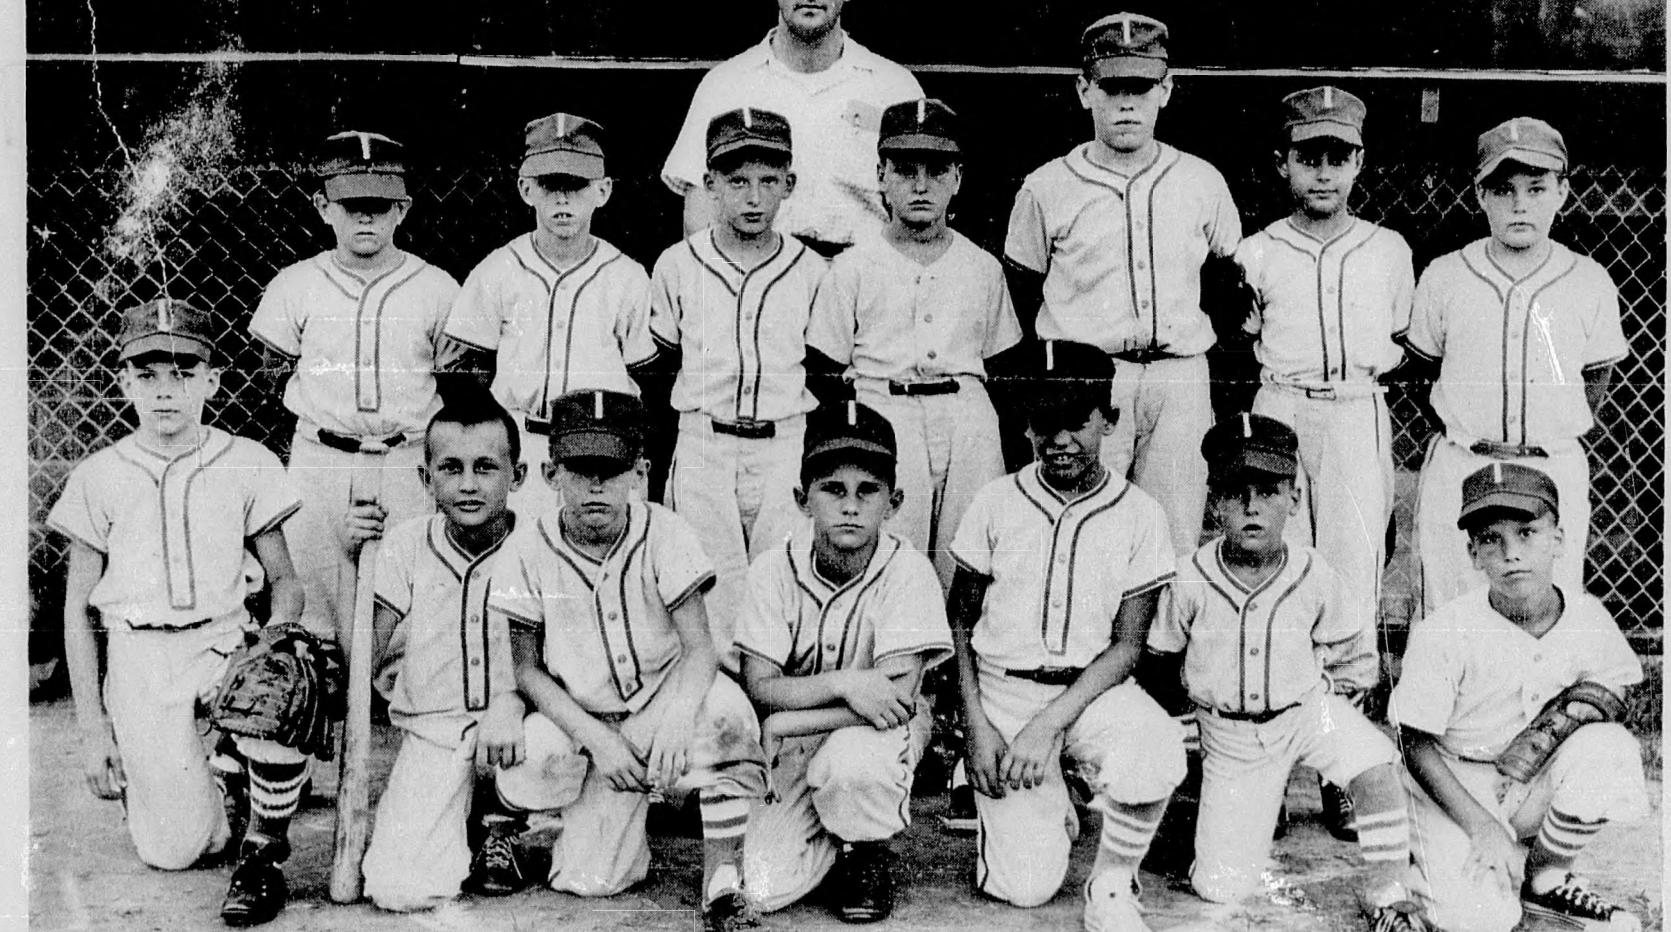

The state of Alabama must furnish a total of 506 young men and present policy is that no married men are to be inducted unless they volunteer.

Nursing Home Cost Rises Above Estimates

The apparent low bidder for the construction of new nursing home by the Elba Hospital Board is \$512,593 for construction of the nursing home. The bid is higher than the \$320,000 estimated by the board. The bid was opened Tuesday, July 15th, as scheduled but with the bid being higher than the money allocated for the project, the board could not give a definite commitment at that time.

The Hospital Board met with the Elba City Council Monday night and presented their needs to the City Fathers who in turn voted to allocate an additional \$32,000 to the nursing home, bringing the total to \$542,593.

The \$512,593 for construction of the nursing home will be financed by a local loan to be repaid from proceeds of the one-cent sales tax pledged by the city to the construction of the nursing home. The loan is being shared equally by The Elba Exchange Bank and The Peoples Bank.

LITTLE LEAGUE INDIANS, under the coaching of Roy Parrish, moved into third place Monday night with a win over the Tigers. The Indians now have a win-loss record of 4-4 and brag that they are on the way up to number one. The Indians are from left to right: kneeling: Jimmy Manning, Mark Vaughan, Ronnie Powell, Bill Mickle, Jeff Wise and Dicky Maddaloni and standing: Travis Nunn, Randy Marlar, Joe Priory, Danny Wayne Lee, Charles Miles, Charles Ross Eilard and Mike McGuire. Coach Roy Parrish is in the background.

The public is continuing to support the Little League and Pony League according to all indications. The number that turns out for the games at the Elba Park and the American Legion Park (both players and spectators) underscore the usefulness of these two fine contributions to the youth of Elba.

If the tomatoes being held by each of the DeVanes are any indication of their contribution to the success of the project, then SHE BEAT HIM even though Mr. DeVane is the one going around town telling everyone about HIS tomatoes.

NEWS OF
COFFEE COUNTY
SERVICEMEN

JAMES F. HAM JR., Staff Sergeant, whose mother, Mrs. Jim F. Ham, resides in Elba, Alabama, has arrived for duty at Laughlin AFB, Texas.

JOHN A. WALKER, Marine Lance Corporal, son of Mr. and Mrs. H. D. Walker of Route 1, Elba, Alabama, is serving as a coach at the Calvin A. Lloyd rifle range at Marine Corps Schools, Quantico, Virginia.

BARRY R. TURMAN, Army Specialist Five, whose wife, Emma, lives on Route 2, New Brockton, Alabama, was graduated from the Seventh U. S. Army Noncommissioned Officer's Academy in Bad Tolz, Germany, July 2.

THOMAS H. MALOY, Cadet, 20, son of Mr. and Mrs. James T. Maloy, 804 Goodson Street, Enterprise, Alabama, is attending an extensive six-week training program at Fort Riley, Kansas, ending August 7.

Cadet Maloy will be given advanced training in the military subjects he has been studying at the University of Michigan, Ann Arbor, under the Reserve Officer Training Corps (ROTC).

While at Fort Riley, he will be trained in various military subjects which will give him the skills necessary to take command. Upon completion of the course, the cadets can choose any of the technical or combat branches of the Army in which to specialize.

Those cadets who have already received college degrees will be commissioned second lieutenants upon the completion of the summer training.

Cadet Maloy was graduated from Enterprise High School in 1962. He is a member of Scabbard and Blade society.

JAMES C. WOOTEN, Aviation Machinist's Mate First Class, USN, son of Mr. and Mrs. James L. Wooten of New Brockton, Alabama, is serving with Attack Squadron 42 at the Oceana Naval Air Station, Virginia Beach, Va.

His squadron is a Fleet Replacement Maintenance

session and on the firing line.

DONALD D. GRANT, Sergeant, USN, son of Morgan D. Grant of Route 3, Elba, Alabama, serving aboard the U.S. Atlantic Fleet's fleet oiler, USS Alagash, sailed from his homeport on the East Coast June 18 for transit to

Construction Begins
International Trade Center
At Mobile

Site preparation has begun and pile driving will be in progress soon down on the waterfront at Mobile, a few yards from ocean vessels that load and unload commerce of world trade at this port.

Construction will begin on the International Trade Center by the Alabama State Docks that will house the trade promotion offices to sell the Port of Mobile throughout the world, and will offer its service to manufacturers in Alabama to help in selling their products overseas.

The construction of the International Trade Center has been made possible by two companion bills of the 1965 special session of the Alabama legislature. One of the bills is a general obligation bond to be voted on by the people of Alabama in December. The other bill is a revenue bond issue which permits short-term financing and immediate construction of the Center pending the approval of the general obligation bill.

The revenue bond issue has already been passed by the legislature and has been signed into law by Governor Wallace.

The contract was awarded for the building of the International Center last week to the E. H. Harrop Construction Company for \$1,342,302.00, the Center to be finished by July of next year.

On the first floor of the Center will be a foreign trade library, exhibit space for commercial and foreign trade displays, and consular offices.

The 2nd and 3rd floor of the Center will offer office space for firms in foreign trade, shipping, and transportation.

On the top of the 4th floor, overlooking the port, will be a World Trade Club and Restaurant, international in its decor and in its menu. This will be a meeting place, an attraction for overseas visitors and the visiting U. S. businessman and shipper.

"This new International Trade Center will be a clearing house on world trade activities for the greater development of foreign trade in Alabama," according to Houston Feaster, Director of the Alabama State Docks Department.

"All this helps not only the individual in Alabama, but Alabama as a whole. Using U. S. Department of Commerce figures, each \$6,000 worth of Alabama goods sold overseas, will create the equivalent of a new job for an Alabama worker."

For 72 cents a week, the same veteran can obtain \$1,000 20-pay life policy.

To add \$1,000 worth of coverage in both cases given above would cost even less, Mr. Smart said. In the case of the modified life policy, it would cost 33 cents a week more to raise the coverage to \$2,000 and 61 cents a week more to get a \$2,000 20-pay life policy.

For 72 cents a week, the same veteran can obtain \$1,000 20-pay life policy.

Modified Life
Policy Available
For Veterans

For a few pennies a week an eligible veteran can make sure his small children have a stake of their own when they reach maturity. Neil R. Smart, Manager of the Veterans Administration Regional Office in Montgomery, said.

Mr. Smart pointed out that for as little as 44 cents a week, a 45-year-old World War II or Korean veteran with service-connected disabilities who can meet other requirements, can get a \$1,000 20-pay life policy.

For 72 cents a week, the same veteran can obtain \$1,000 20-pay life policy.

To add \$1,000 worth of coverage in both cases given above would cost even less, Mr. Smart said. In the case of the modified life policy, it would cost 33 cents a week more to raise the coverage to \$2,000 and 61 cents a week more to get a \$2,000 20-pay life policy.

For 72 cents a week, the same veteran can obtain \$1,000 20-pay life policy.

To add \$1,000 worth of coverage in both cases given above would cost even less, Mr. Smart said. In the case of the modified life policy, it would cost 33 cents a week more to raise the coverage to \$2,000 and 61 cents a week more to get a \$2,000 20-pay life policy.

For 72 cents a week, the same veteran can obtain \$1,000 20-pay life policy.

Farm NEWS

—BY TOM CASADAY, CO. AGENT—

TRAINING

Mrs. Sara E. Hutchinson, our Coffee County Extension Chairman, will receive her Master of Science degree in Home Economics at Auburn University, Mrs. Hutchinson has been attending Auburn University this summer. For several years she attended off-campus classes at Headland completing her requirements.

I know that the Coffee County Home Demonstration Club members and other leaders and friends are happy for Mrs. Hutchinson in receiving this degree.

FARM BUREAU

President E. C. Brooks, Coffee County Farm Bureau, told me the other day that plans are complete for the annual Farm Bureau meeting which is to be held in New Brockton July 22.

I understand that all Farm Bureau members will receive a written notice of this meeting.

A lot of folks are working to make the annual meeting a big success. Director Phillip Martin is chairman of the program committee. Vice President Frank Britt is chairman of the food committee. From all reports, I am sure that this is going to be a top annual meeting of the Coffee County organization.

CATTLE CONFERENCE

All Coffee County cattlemen are invited to a two-day beef cattle conference in Auburn July 29 and 30. The program will feature some of the leading cattlemen in the United States. I am sure that a number of Coffee County beef cattle producers will want to attend. For more information on this conference, contact J. R. Speed, T. C. Whitman, or me.

COTTON

The cotton insect control job that is done

HOW MUCH DID A COLOR TV COST 25 YEARS AGO?

Since I don't even 25 years ago there is no far way to estimate the cost. The same reasoning applies to the cost of today's prescriptions. Most of today's drugs didn't even exist 25 years ago, so they could not be bought at any price. When you consider the lives that have been saved, the rapid rates that have resulted from modern medicines, it is no wonder we pay today's prescriptions are the biggest bargain in history.

FORESTRY CAMP

The 4-H Forestry Shortcourse will be held August 3 at the Tuskegee National Forest. Four Coffee County 4-H'ers plan to attend the one-day meeting. The day's activities will include tree identification, measuring trees, selective cutting, and logging safety.

ANNUAL FARM BUREAU MEETING

The annual Coffee County Farm Bureau meeting will be held Thursday, July 22, at New Brockton. I'm sure that there will be plenty of food for the members present and that there will be a well-planned

program for all to enjoy.

If you are a Farm Bureau member, begin to make your plans to attend the meeting.

WITHOUT SOIL

Ever thought about growing plants without soil? This method, called Hydroponics, is the hobby of many people. The main requirement for growing plants without soil is to provide a constant supply of fresh water. The plants not only take their oxygen supply from the water but also the many mineral elements needed for healthy growth.

You might want to try this as a hobby.

PEANUTS

Two weeks will largely determine how many peanuts you make on your crop this year. One is rainfall and the other is copper-sulfur or some other material for leafspot control. You cannot cure leafspot but it can be prevented. We recommend four applications ten days apart beginning about the 1st of July.

Folks who planted late can start their control program now and help produce a high yield.

POULTRY

Last week I attended a three-day poultry school at Auburn. Most of the emphasis was placed on producing broilers but egg production and management of breeder flocks and other ideas on poultry were mentioned.

Broiler production is becoming a big business in Southeast Alabama. Coffee County is experiencing a rapid growth in this business. I thoroughly enjoyed the meeting at Auburn. The training I received will help me in my work with our broiler contractor and others.

CATTLEMEN VOTE

On Tuesday, August 10, Alabama cattlemen will vote on whether or not they

wish to continue the statewide beef promotion program.

This program is financed by cattlemen who voluntarily contribute ten cents per head on each cow or calf they sell through licensed stockyards or to meat packers. Any cattleman who does not wish to participate in the program is not required to do so.

The beef promotion program is designed to increase the beef consumption in Alabama through advertising, education, marketing, research, and public relations.

Many pastures need an application of nitrogen this month, particularly where there is little or no clover. Sixty to seventy-five pounds per acre will provide a lot of grazing or hay this summer.

Establishment of permanent vegetative cover; improving established permanent cover; application of limestone on farmland; planting, interplanting or replanting trees; improving a stand of trees; establishing sod waterways; constructing terraces; constructing open drainage; constructing farm ponds for wildlife or livestock water; constructing cross fences; constructing erosion control dams; establishing of winter cover crops.

Please remember that producers who do not sign up during this period often receive a smaller cost share rate than others and sometimes we do not have sufficient funds available after the close of the sign-up period to approve any cost shares.

Each producer is urged to determine the practices needed on his farm and contact the County ASOS Office at New Brockton, Alabama, for assistance in filing application for cost shares.

1965 Fall Signup For ACP Practices Now In Progress

The regular fall sign-up for the ACP program is now in progress and will continue through August 12, 1965.

The following is a list of practices which can be carried out at this time of year:

Establishment of permanent vegetative cover; improving established permanent cover; application of limestone on farmland; planting, interplanting or replanting trees; improving a stand of trees; establishing sod waterways; constructing terraces; constructing open drainage; constructing farm ponds for wildlife or livestock water; constructing cross fences; constructing erosion control dams; establishing of winter cover crops.

Please remember that producers who do not sign up during this period often receive a smaller cost share rate than others and sometimes we do not have sufficient funds available after the close of the sign-up period to approve any cost shares.

Each producer is urged to determine the practices needed on his farm and contact the County ASOS Office at New Brockton, Alabama, for assistance in filing application for cost shares.

Frozen vegetables can be kept up to one year without any loss of quality if the storage temperature is zero degrees or lower.

Milk and milk products provide 28 per cent of the nation's essential food nutrients for little more than 19 cents of each food dollar.

What Alabama Makes Makes Alabama

VOLUME 68

ELBA, ALABAMA, THURSDAY, JULY 29, 1965

NUMBER 3

The Elba Clipper

What Alabama Makes Makes Alabama

Nursing Home Building To Start In August

The Elba General Hospital Board hopes that the completion of the legal formalities, the work on the new nursing home can commence soon after the first of August. All of the necessary papers are in the office of the Public Health Service in Atlanta for approval and since everything has been done according to their rigid specifications this is but a formal bit of action that should take about ten days.

The contract calls for completion of the building in about 450 days but the apparent low bidder has stated that he hopes to complete the project in about 360 days. The apparent low bid, by Blum Industries of Dothan, was \$424,146. The total project estimate for the much needed 40 bed nursing home is over a half million dollars.

Mr. Blum states that he plans to use as much local labor and skill as possible.

Ed Reid Dies

In Montgomery

Ed E. Reid, executive director of the Alabama League of Municipalities, died in a Montgomery hospital early Monday of cancer.

Reid, 55, was a former newspaperman who became the confidante of governors, senators and presidents.

Reid underwent an operation last February and never completely recovered.

He was, for more than 20 years, a walking encyclopedia when it came to Alabama politics.

Reid was known throughout the nation as an authority on municipal affairs and served three terms on the board of directors of the American Municipal Association.

His strong and continued popularity was somewhat unique for someone who had to (and did) get things done.

NEW JAYCEE OFFICERS posed for the photographer immediately after their installation July 15th at the Elba County Club.

The new officers are left to right: James Maddox, State Director; George Grider, Vice President; Jimmy Treasurer; Marvin McCollough and Randy Donaldson, Directors.

The Jaycees are a national organization dedicated to developing young men into outstanding leaders. They sponsor many worthwhile local, state and national projects with vigor and enthusiasm that can only be seen in such an organization as this that limits its membership to young men between the ages of 21 and 35.

Dorsey Appointed To Governor's Committee

Governor George C. Wallace recently announced the appointment of Frank Dorsey, of Millbrook, Alabama, and T. K. Dorsey, of Elba, Alabama, to serve as members of the Industrial Advisory Committee.

Mr. Dorsey is Executive Vice - President and Director of Sales of Dorsey Tractors, Inc., in Elba. He is a past president of the Alabama Trucking Association.

The committee was organized by Governor Wallace to work closely with the Alabama State Planning and Industrial Development Board and other state and local agencies in promoting the establishment of new industry and expansion of industries already doing business in the State.

Griffin To Play

For All-Stars

Elba High School will be represented in the high school all-star basketball game at Tuscaloosa by Jerry Griffin, son of Mr. and Mrs. E. C. Griffin.

Jerry, a 1965 graduate of Elba High School, was chosen as an all-star to represent Region II after his team's success throughout the year. He averaged more than 20 points per game during his two varsity seasons.

He will receive an expense paid week's trip. The game in which he will play, the single and double A, will be Wednesday, August 4, at 7:00 p.m. in Foster Auditorium.

OUTGOING PRESIDENT E. C. Brooks

Elba looks at some of the gifts given him at the annual meeting of the Coffee County Farm Bureau a few days ago. Charles Malloy, a director from Kinston, made the award. Brooks served three years as president of the Coffee County Farm Bureau. The members and directors praised him for his excellent work.

Rabies Clinic

Scheduled For Elba Area

Doctor Phillip H. Hamm has announced in this issue of The Clipper listing the time he will be in your community with the annual rabies clinic.

The purpose of a rabies clinic is to give owners of pets a convenient opportunity to have their animals given shots for the dreadful rabies. Law requires that all dogs and other pets be given the shots.

The Elba veterinarian has set up the clinic and will go into the different communities so that owners may have their pets inoculated without the long period of time required to take them to town for the shots.

Anyone who has been bitten by a rabid animal or has seen a small child who has been bitten have to take the long series of shots which follow a possible rabid infection will know that it is much easier and safer to have his pet inoculated.

METHODIST REVIVAL IN PROGRESS

The summer revival is in progress at the Elba Methodist Church with the Reverend Powers McLeod, District Superintendent of the Mobile District of Methodist Conference, as the guest speaker.

The pastor is Reverend David Carter.

First Baptist Revival To Start Monday Evening

Reverend Shelby Smith, Southern Baptist Missionary to Ecuador and a native of Elba, is the wife to have the honor as she pens the coveted pen on her beaming husband Jimmy at ceremonies during the recent Jaycee installation banquet.
